首届爱丁堡大学单学位研究生入学 First Cohort of UoE degree postgraduate students registered in ZJE

浙江大学和爱丁堡大学不断深化国际交流与合作，继双学位本科和双学位博士培养后，浙江大学爱丁堡大学联合学院（ZJE）于今年增设爱丁堡大学硕士和博士学位教育项目，这开创了爱丁堡大学办学首次将研究生学位在国外授予的先河。该项目采用自主招生方式，按爱丁堡大学的入学标准招录，学生入学后全程在ZJE进行培养，学业合格者，将被授予爱丁堡大学硕士学位或博士学位。

9月，ZJE迎来了首届第一批单学位项目的同学们，他们怀揣着憧憬与梦想踏入浙江大学国际校区，开启人生新“研”途。首届单学位项目共招收9位硕士生及8位博士生，他们的到来标志着ZJE单学位项目成功启动。

After the dual degree undergraduate and PhD programme, ZJE opened the UoE degree master programme and PhD programme this year, creating a precedent, for the first time in the history the University of Edinburgh will award a graduate degree abroad. That's the result of Zhejiang University and The University of Edinburgh continued deepening international exchanges and cooperation.

In September, first cohort of UoE degree postgraduate students finished their registration in ZJE, and opened a new journey with ZJE.

As for why students chose this programme, many students mentioned the impact of the epidemic on studying abroad. Also, compared with the three-year master's programme, the one-year high-quality programme can meet their needs to learn more knowledge and cultivate more abilities in a short time.

Voice from ZJEers

叶治国 Mavin Ye
ZJE副院长 Vice Dean of ZJE

犹记得2016年7月底，我与时任ZJE执行院长John Stewart教授赴海宁考察开学筹备情况，没想到整个校区还是个大工地，建筑材料堆满了广场，钟楼的外墙也就完成了大半……。在苏格兰人John看来，这样的状态要在当年8月16日搬迁到海宁办学是个不可能的任务。然而，我们做到了：16日那天我们的大巴抵达海宁校区时，迎接我们的是整洁的广场，敞亮的图书馆，温馨的餐厅……，这就是中国速度。

而5年半过后，我们已经从22个本科生0个教师的婴儿院长成为一个拥有429位本科生，26位师资，19位博后的青年学院，刚开始空空荡荡的学院大楼也已经接近饱和，这何尝不也是一种中国速度。

在我看来，达成这个“中国速度”的根本保障就是ZJE管理支撑团队的协作与坚韧。从筹建期的3杆枪，到搬迁海宁的7个人，到现在28人的团体，ZJE管理支撑团队一直秉持服务师生理念，坚持建设“公平可持续的高投入高水平中西融合”办学模式，团结一心，用咬定青山不放松的韧劲，“先发生再发展”的巧劲，完成了学院成立、第二专业开办、研究生培养、实验室建设等一个又一个的艰巨任务，有力保障了ZJE今日的壮大。我也坚信，融入团队基因的协作与坚韧，将支撑ZJE迈向更辉煌的明天！

I still remember that at the end of July 2016, Professor John Stewart, the then executive dean of ZJE, and I went to Haining to investigate the campus opening preparations. The whole campus was still a large construction site. In the view of John, it is an impossible task to move to Haining on August 16 that year. However, we did it! This is the speed of China.

Five and a half years later, we have grown from a baby institute with 22 undergraduate students and 0 teachers to a youth institute with 429 undergraduate students, 26 faculty and 19 post-doc fellows. The ZJE building is also nearly full, which is also a kind of Chinese speed.

In my opinion, the fundamental guarantee for achieving this "China speed" is the cooperation and tenacity of the ZJE management support team. From the three people in the preparatory period, to the group of 28 people now, ZJE management support team has always adhered to the concept of serving teachers and students, adhered to the school running mode of "fair and sustainable high investment and high-level integration of China and the west", united as one, which has effectively guaranteed the growth of ZJE today. I also firmly believe that the cooperation and tenacity integrated into the team gene will support ZJE towards a more brilliant tomorrow!
